The Accessibility Plan will contain relevant actions to:

Improve access to the school including reasonable adjustments to the physical environment; physical aids and timetabling.

Increase access to the curriculum for pupils with a disability, expanding and making reasonable adjustments to the curriculum as necessary to ensure pupils with a disability are as equally prepared for life as others. This covers teaching and learning and the wider curriculum of the school such as participation in after-school clubs, leisure and cultural activities or school visits. It also covers the provision of specialist aids and equipment, which may assist pupils in accessing the curriculum.

Improve and make reasonable adjustments to the delivery of written information to pupils, staff, parents and visitors with disabilities. Examples might include hand-outs, timetables and information about the school and school events (these are examples only and not an exhaustive list). The information should be made available in various preferred formats within a reasonable time frame. Regular parent and pupil voice to monitor perception of communication between school and families.

The Action Plan for physical accessibility relates to the Access Audit of the school which is undertaken annually alongside the review of the Action Plan. It may not be feasible to undertake some of the works during the life of this Accessibility Plan and therefore some items will roll forward into subsequent plans.

This policy and the Accessibility Plan will be monitored through the Governing Board Leadership and Management Committee. The Accessibility Plan will be monitored by Ofsted as part of their inspection cycle.
